Abdul Ahad

Full Stack Developer (Node.js / React / Laravel)

Full Stack Developer with 2 years of experience building backend services and RESTful APIs with Node.js (Express.js, NestJS) and PHP / Laravel, and responsive front-ends with React.js and Next.js. Experienced in third-party integrations (PayPal, Stripe, Google APIs), authentication and authorization (JWT, OAuth, RBAC), PostgreSQL, MySQL and MongoDB, WebSockets, Jest testing, Docker, CI/CD and cloud deployment (AWS, VPS, Vercel). Delivered 9 production projects, including a SaaS investment platform and international client work, and led a small team.

Experience

Sep 2024 - Present

DevZone

Full Stack Developer

- Built and maintained backend services and RESTful APIs with Node.js (Express.js, NestJS) and Laravel across 9 production projects, including international client projects (UK, Australia, UAE) and e-commerce sites (Quick E-Com, Resonance Elite).
- Built Laravel backends for Resonance Elite and Convertics using Eloquent ORM, migrations, request validation and authentication, connected to Next.js frontends.
- Integrated PayPal and Stripe payment gateways with webhook handling, TollGuru API for toll calculation, Google Maps, Google OAuth 2.0, GA4 API and Cloudinary; sent transactional emails with Nodemailer.
- Built Opus Globals, a SaaS investment platform, with React, NestJS and MongoDB, including real-time features using WebSockets.
- Designed PostgreSQL, MySQL and MongoDB schemas, used Prisma ORM, and used Redis caching to improve performance.
- Implemented authentication and authorization with JWT, OAuth login and RBAC, and applied rate limiting to secure APIs.
- Built responsive front-ends with React.js, Next.js, TypeScript, Bootstrap, Tailwind CSS and ShadCN UI from Figma designs, using Redux, Context API, Zustand and React Query / SWR.
- Wrote unit, integration and e2e tests with Jest, Cypress and React Testing Library, and documented APIs with Swagger / OpenAPI.
- Containerized applications with Docker, set up CI/CD with GitHub Actions, and deployed to AWS, VPS and Vercel; troubleshot production issues, including a race condition fixed with MongoDB session transactions.
- Led a small development team in Agile / Scrum workflows with code reviews and Git / GitHub.
- Also: Prime Chauffeur Australia, Dubai Gold & Silver Bar Makers, UCMS, Convertics, HB Transportation, Obosa, Al-Ahsan Travels.

2023 - 2024

Excellence Code Solution

Full Stack Developer Intern

- Contributed to real client projects using React, Node.js, Express and MongoDB; built and tested features, fixed bugs and improved code quality.
- Delivered 3 production-level client projects: Varidate, Aura Zindagi and Khat-e-Khazanah.
